FRONT-LINE
Where America's Buses Go to Market
-- 650 Red Oak Rd., Stockbridge, Ga. 30281 --

Another new year! - let's go Busing! Normal IS COMING! Be ready. . . get your ducks in a row as the old country saying goes. Some are running full blast, some still struggling, but things are settling down.

We could use your help too, there's been closings, address & name-changes etc. and it's hard to keep up with it, so let us know what you know so we can all work together. Just a note, or a phone call can help us keep all in order.

We are publishing ONLINE now but plan on returning to print-mail shortly. Rates are almost a giveaway now; See page 14. Look around, find something to advertise, maybe a wanted item, or a coach that's no longer pulling it's load, or your clientele has changed. We'll sell it for you!

SAWYERS BUS SALES

Air Conditioning Hoses

to fit most motor coaches, including the 2-bolt flange fittings

We stock STAINLESS STEEL CORE flexible hoses for most motor coaches, MCI, PREVOST, SETRA, VAN HOOL including flat-face, flare and Bitzer 2-bolt hoses. We can also make custom hoses to fit just about anything you may need. Stainless steel core hoses can contain any refrigerant and when installed correctly are trouble-free and economical. Call for these and most other air conditioning system needs.

FRONT-LINE

WHERE AMERICA'S BUSES GO TO MARKET

650 Red Oak Rd., Stockbridge, GA 30281

WWW.FRONTLINEBUSES.COM

FRONTLINE has been published since 1982! For many years it was printed as a black and white publication twice monthly. Since February of 2019, we transitioned to monthly with full color on enamel paper which greatly increases visibility, clarity and definition to buses and offers greater attraction and value to advertisers.

Our goal is to reach the entire motor coach industry with timely advertising for motor coaches and related products and services. We now mail to well over 4,000 companies in all 50 states. Our list is maintained regularly as operators come and go. *We reach the motor coach market in the United States!*

ALL SIZES and TYPES of buses are advertised from time to time. Small buses, large buses, older buses, newer buses. Take your pick. Businesses for sale show up regularly also. If it's connected to the motor coach industry in the United States, here is where you will find it! Printed and on the web: FRONTLINEBUSES.COM
